

BALTIMORE DOMINICANA, C. por A. March 23, 2000

TO WHOM IT MAY CONCERN

We would like to introduce ourselves as leading manufacturer of condiments in the Dominican Republic.

In 1996 we brought into our operation a Kalfass Mini Compact Shrinker MC 5040/400 de Luxe, in 1997 a Kalfass Mini Compact Shrinker MC 5040/400 and in 1999 a Kalfass Compact Shrinker KC 5040/450 Universal which were put into operation on our condiment packaging line.

Kalfass equipment is found to be of a good conceptual engineering design. Set up and operation is very friendly to a semi-skilled operator.

Since the installation in 1996 the equipment is operated with no problems. We have always the support and assistance of the Kalfass people when needed.

Concluding, we would like to note that we are quite pleased that we have selected Kalfass equipment for our condiment packaging and we recommend Kalfass as a reputable and dependable equipment supplier.

Sincerely yours,

Baltimore Dominicana, C. por A.
