J. ARMANDO BERMUDEZ & Co. C. POR A.

ESTABLECIDOS EN EL AÑO 1852

TO WHOM IT MAY CONCERN

We would like to introduce ourselves as leading rum distillery and bottlers in the Dominican Republic.

In 1996 we brought into our operation a Kalfas Compact Shrinker KC 5040/450 Universal which was put into operation on our packaging line.

Kalfass equipment is found to be of a good conceptual engineering design. Set up and operation is very friendly to a semi-skilled operator.

Since the installation in 1996 the equipment is operated with no problems. We have always the support and assistance of the Kalfass people when needed.

Concluding, we would like to note that we are quite pleased that we have selected Kalfass equipment for our packaging and we recommend Kalfass as a reputable and dependable equipment supplier.

Sincerely yours,

J. ARMANDO BERMUDEZ & CO., C. POR A.
