TO WHOM IT MAY CONCERN

We would like to introduce ourselves as leading Soft Drinks and Juices producer and Authorized bottlers of Coca Cola and Schweppes in Cyprus.

In 1994 we brought into our operation a Kalfass Tray Packer / Shrink Wrapper system which was put into operation on our PET bottling line. The installation and commissioning of the above equipment were carried out by Kalfass Engineers efficiently and in a commentable fashion.

Kalfass equipment is found to be of a good conceptual engineering design. Set up and operation is very friendly to a semi-skilled operator.

Since the installation in May 1994, the equipment is operated with no problems. We have always the support and the assistance of the Kalfass people when needed.

Concluding, we would like to note that we are quite pleased that we have selected Kalfass equipment for our PET bottling project and we recommend Kalfass as a reputable and dependable equipment supplier.

Sincerely yours,

D.Cleanthous
Plant Manager
